MD, FRCPC (Dermatologist), FAAD  
ADJUNCT PROFESSOR OF MEDICINE,  
WESTERN UNIVERSITY

## RADIN SKIN CENTRE

LASER - COSMETICS

## EXCELLENCE AT EVERY LEVEL

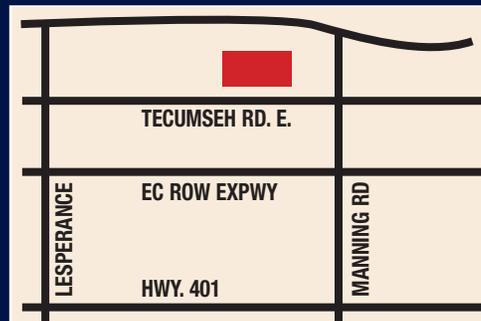

**Dr. Daniel A. Radin is a dermatologist.** Dermatologists are skin experts who understand the medical, surgical, and cosmetic concerns of the skin. In fact, dermatologists developed cosmetic fillers, BOTOX®, and laser treatments. Dr. Radin has his board certification in Canada and the United States. He is one of a select few dermatologists to hold these titles in both countries.

A graduate of the prestigious University of Toronto medical school, Dr. Radin completed his dermatology training in New York, Michigan and Toronto. He is a fellow of the Royal College of Physicians and Surgeons of Ontario and a member of the American Academy of Dermatology, the Ontario Medical Association, the Canadian Dermatology Association and the Essex County Medical Society. Dr. Radin is also involved in specialized teaching and medical education, holding the title of Adjunct Professor in the Department of Medicine at Western University.

You deserve to be seen by the best, a board certified specialist. See Dr. Radin and his team at the Radin Skin Centre.

To learn what Dr. Radin can do to reveal the skin and appearance you desire, contact Radin Skin Centre to book your **FREE** consultation.

If you have a medical concern/OHIP concern, please have your doctor/clinic refer you.

**BOTOX®,  
DYSPORT® AND  
COSMETIC FILLERS**

Do you have lines or wrinkles that make you look tired or angry? Do you want a more rested, rejuvenated, youthful look? Perhaps you'd like to soften lines and wrinkles. Botox®, Dysport® or cosmetic fillers may be just the answer.

One of the most frequently requested treatments is Botox®, Dysport® and for good reason. The injections relax and smoothes facial muscles that wrinkle the brow, crinkle around the eyes and wrinkle the forehead, etching lines that remain and deepen over time. Botox® even treats excessive sweating. A few injections of Botox®, Dysport® can result in a refreshed, more carefree you.

For deeper lines and grooves, Radin Skin Centre provides dermal fillers that plump up the skin and erase visible signs of aging and stress. With age there is a loss of volume, firmness and elasticity of the skin. Fillers can help restore volume for a more youthful appearance.

Dr. Radin performs all the Botox®, Dysport® and fillers procedures himself; he does not have a nurse or family physician do the procedures. As a specialist he knows the facial anatomy and special techniques to give the best results with minimal risk.

**Gentle  
Max Pro Laser**

First in Canada.  
Safe for all  
skin types.

**LASER HAIR REMOVAL**

Are you troubled by excessive hair? You no longer have to suffer from embarrassing hair growth.

Dr. Radin was the first person in Canada to have the Gentlemax Pro Laser – this is the most advanced and effective hair removal system available. The Gentlemax Pro Laser uses an Alexandrite Laser and a YAG laser, which are the gold standards for hair removal in both light and dark skinned individuals. Many clinics use a diode laser. It is a scientific fact that an alexandrite laser (755 nm) is the gold standard laser in hair removal in light skinned individuals. Any other laser is just not as effective. The Yag laser (1064 nm) laser is the gold standard for darker skin types. At the Radin Skin Centre both lasers are available. For those that prefer IPL (intense pulsed light) hair removal, this is also available. A number of treatments are required. If you are serious about hair removal, you need to see the experts at the Radin Skin Centre.

**LASER TREATMENTS  
MICRODERMABRASION  
CHEMICALS PEELS  
MOLE & SKIN TAG REMOVAL  
SKIN CARE PRODUCTS  
...AND MORE**

Would you like smoother, more glowing skin? Are you tired of those brown spots, red blotches or veins on your face, neck, chest, legs or hands? At the Radin Skin Centre, we offer a variety of options including laser treatments and microdermabrasion. It's more affordable than you might think.

Dr. Radin has a variety of lasers which can easily remove red spots, broken capillaries, veins and brown age spots.

Photorejuvenation has become one of the most popular cosmetic procedures. It improves dull complexions, uneven pigmentation, flushing skin and rosacea.

Chemical Peels and Microdermabrasion can improve the texture and quality of your skin giving you a more refreshed look.

With all these treatments there is little or no "downtime".

Unwanted Mole and Skin Tags can be removed with Dr. Radin's advanced techniques and technology with little to no scarring.
